OBJECTIVE

I am a dedicated and skilled ReactJS developer with 1.8 Years of experience in designing, implementing, and maintaining software applications. My expertise lies in HTML5, CSS3, SASS, JAVASCRIPT, REACTJS. To secure a challenging position as a Frontend developer, leveraging my strong foundation in web development technologies and frameworks, along with a passion for learning and contributing to innovative projects and to create robust and efficient web applications, while continuously enhancing my expertise and staying abreast of industry trends and best practices.

EDUCATION

Bachelor of Engineering in Civil, Government Engineering College, Hassan 2018 - 2022
CGPA: 7.26/10 (69%)

Senior secondary education in SCIENCE (PCMB), Government Boys PU College, Hassan 2016 - 2018
percentage: 87%

Secondary education, Sri Venkateshwara High School, Hassan 2016
percentage: 68.32%

SKILLS

Technical Skills	HTML5, CSS3, JavaScript, SASS, MUI, Tailwind CSS, Axios, ReactJS, Redux-Toolkit
Soft Skills	Problem Solving, Communication, Adaptability, Collaborative, Attention to Detail
Tools	Github, Vercel, VSCode, GitLab, Netlify

EXPERIENCE

ReactJS Developer Oct 2022 - May 2024
Emertail Technologies PVT LTD *Bangalore, IND*

1. Assessments and Certifications

- **Developed and Maintained Frontend Components:** Designed and implemented user-friendly interfaces using React.js, ensuring seamless navigation and interaction for users taking assessments.
- **State Management with Redux:** Managed application state using Redux, enabling efficient handling of user progress, question data, and certification results across the application.
- **Form Handling with Formik:** Utilized Formik for building robust and dynamic forms, ensuring smooth user input validation and submission processes for different assessment levels.

2. UI For Test Report

- **Frontend Development:** Developed and maintained the test report user interface using React.js, ensuring a responsive and interactive experience for users.
- **Dynamic Data Visualization:** Implemented dynamic doughnut charts using Chart.js, providing users with clear and interactive visual representations of test data.
- **Managed application state with Redux,** efficiently handling data flow and state changes across the test report UI, including filter and search functionalities.
- **Designed and integrated routing** for seamless navigation within the test report section, developed tree structure visualizations to represent hierarchical data effectively, and implemented search and filter functionalities to enhance user experience.
